Overview

Preface

The *Electronic Data Exchange (EDE) Technical Reference* is designed to meet the reference needs of programmers and data processing staff.

The Department of Education (ED) provides two types of software to EDE participants:

- EDExpress for Windows software for processing student financial aid. Using EDExpress Financial Aid Administrators (FAAs) can enter and edit electronic initial FAFSAs and electronic corrections. They can create duplicate requests, track documents, student aid packages, originate loans, and track disbursements for Pell and Direct Loans, and send signature records for FAFSA on the Web, Renewal FAFSA on the Web, Corrections on the Web, and FAFSA Express applications.

- EDconnect software for sending and receiving electronic files.

Many EDE participants need specifications for these functions to develop their own software or to develop software bridges between their own systems and EDExpress.

This guide provides sufficient information for you to build your own software to complement or take the place of the software provided by ED for sending and receiving Free Application for Federal Student Aid (FAFSA) data. It includes information about record layouts, required edits, print assistance, and reject messages that are applicable for electronic FAFSAs, Institutional Student Information Records (ISIRs), electronic corrections, and signature records.

The EDE process is described in this section with additional information in the EDE Processing section. There are numerous references to the use of EDExpress software, so this guide may be a useful reference tool because the processing steps remain essentially the same.

Header and Trailer Records

Each batch of electronic records for FAFSAs, corrections, duplicates, Institutional Student Information Records (ISIRs), signature records, and Federal Data Requests (FDR) travels over the Student Aid Internet Gateway (SAIG) with a header and trailer record for identification.

You should refer to the Record Layouts section for instructions on individual header and trailer record layouts (refer to Header Record Sent To/Received From the CPS and Trailer Record Sent To/Received From the CPS).

Electronic FAFSA

An Electronic FAFSA begins with a signed Free Application for Federal Student Aid (FAFSA) that is completed by the student. The data is entered by the school, exported to create a file, formatted, and transmitted via the SAIG to the Central Processing System (CPS). Processed FAFSA records, EAPS03OP, are transmitted back to the school's destination point as ISIRs in separate message classes for FAFSAs.

The Record Layouts section includes information on record layouts (FAFSA Application Export Record Layout- (EAPS03IN)). Rejects are in the Processing Codes section. How to handle rejected FAFSAs is located later in this section and the EDE Processing section. The Printing section includes details on printing ISIRs.

Electronic Renewal FAFSA Requests

The Electronic Renewal FAFSA process has been completely re-engineered for the 2002-2003 year.

We are eliminating the option to request that the CPS send a RAD file of specific students to the school so the school can print and distribute Renewal FAFSAs. Instead, the CPS will automatically send to all destination points an electronic file containing a list of eligible 2002-2003 Renewal FAFSA applicants and will indicate who received a paper Renewal FAFSA or PIN mailer. The layout for this file is called RAPP PIN/Print Notification Layout and is found in section 3, Record Layouts.

We are eliminating the request option that the CPS mail pre-printed Renewal FAFSAs for designated groups of students directly to your school for distribution to your students. Instead, the CPS will print and mail paper Renewal FAFSAs directly to students.

The CPS will automatically send PIN mailers instead of paper Renewal FAFSAs to eligible applicants who are graduate students or who submitted a FAFSA or made corrections via the Internet. These students can use their PINs to access and sign their 2002-2003 Renewal FAFSAs on the Web. In addition, you can continue to use FAA Access on the Web to request that PINs be mailed to your students, or create your own file and transfer your PIN Mailer request via SAIG. The layout and error file for requesting PINs instead of paper Renewal FAFSAs for your students is found in section 3, Record Layouts and is called Type 2 Individual PIN Mailer Request Export and PIN Error Import Record Layout.

We are phasing out CPS Online Query and its access through EDconnect this fall. Schools may continue to use FAA Access on the Web to request that the CPS send PIN mailers to eligible students who would otherwise receive a paper Renewal FAFSA.

We are removing all Renewal FAFSA functionality from the 2002-2003 EDExpress software and discontinuing the 2002-2003 version of the stand-alone Renewal Application software. (**NOTE**: Third party or in-house application systems should also eliminate these features from their software.)

Refer to the Renewal Application Action Letter for more details regarding the changes (GEN-01-10).

Institutional Student Information Record (ISIR)

CPS generates an ISIR in response to:

- Electronic Free Application for Federal Student Aid (FAFSA), correction, or duplicate request from your school.

- Electronic FAFSAs and corrections done by another school. You will receive the resulting ISIR if your Federal School Code is listed on the transaction.

- Web FAFSAs or corrections using FAFSA on the Web, Renewal FAFSA on the Web, or Corrections on the Web.

- FAFSA Express applications

- Paper FAFSA or corrections to a Student Aid Report (SAR) if your Federal School Code is listed on the transaction.

The CPS sends Automatic ISIRs to destination points for every student indicating a school serviced by the destination point on the FAFSA, and to state agencies which elect to receive ISIRs for legal residents or students indicating a school in that state.

State agencies can request ISIRs for any student on the CPS database. This process is known as the Federal Data Request (FDR).

The Record Layouts section includes details on the ISIR record layouts. The Processing Codes section includes information on comment codes, verifiable rejects, and how to respond to each. The Printing section contains specifications for printing the ISIR.

The record layouts for FDR are in the Record Layouts section (FDRS03IN), and the procedures for the FDR process are in the EDE Processing section.

Electronic Corrections/Duplicate Requests

Schools can submit corrections to FAFSA data electronically. The Record Layouts section includes the record layouts for submitting corrections (CORR03IN).

Schools can make duplicate requests to receive a specific ISIR transaction for a student provided their Federal School Code is listed on that transaction. The Correction and Duplicate Request record layouts are found in the Record Layouts section and are submitted in the CORR03IN message class.

Information about adding your Federal School Code to receive electronic data, making signature corrections, requesting a duplicate ISIR, and using the correction record are found in the EDE Processing section (section 2).

Handling Record Level Rejected Records

If the specifications in this guide are not followed on a particular record, an EDE Record Level Error Report file is transmitted to you and may be printed as an error report. (The layout is in the Record Layouts section.)

The EDE Record Level Error Report contains the record's serial number, the student's ID, the transaction number, last name, first name, the SAR field number in error, an edit code, an error code and a text explanation for the reason the record was rejected. Each field in error is reported. If it was rejected due to invalid value, CPS sends the actual value of the data received from the school. A serial number and student ID is listed more than once in the EDE Error Record Report when a record has more than one field in error. See section 4, Processing Codes for additional details about rejects. The following is a list of message classes for reporting errors:

CORE03OP   Electronic Correction or Duplicate Request Errors

FDRE03OP   Rejected FDR Requests

EAPR03OP   Electronic FAFSA Rejects

SIGA03OP   Signature Correction Acknowledgements & Errors

EREP03OP   PIN Mailer Request Errors

Handling Batch Level Rejected Records

A Batch Level Error Report is returned to you if an entire batch is rejected because of an incorrect batch number. The message classes are the same as used for rejected individual records. The layout for this report appears in the Record Layouts section. The Processing Codes section has the specific error codes and messages.

What's New and Changed for 2002-2003

Listed below you will find some of the significant changes for 2002-2003. Please refer to section 4, Processing Codes for the 2001-2002/2002-2003 ISIR Cross Reference table. This table is a cumulative list of changes to the ISIR.

- Section 4 was renamed from Processing Codes/System Requirements to Processing Codes.

- Section 5, Printing, was modified. You are no longer required to print ISIRs exactly as EDExpress does. We have modified this section as a result.

- Section 6, Miscellaneous was removed. The Message Class table was moved to section 4. The test data information was removed from this document. The new NAS specifications initiative will replace this testing.

- There were no fields added or deleted from the FAFSA.

- The following fields were deleted from the ISIR Record Layout:

  - NSLDS FFEL Master-Prom Note Flag

  - NSLDS FFEL Lender Code

- This year the ISIR Record Layout will only contain data for 6 loans instead of 12 so the following fields have been deleted:

  - NSLDS Loan (7 to 12) Sequence Number

  - NSLDS Loan (7 to 12) Type Code

  - NSLDS Loan (7 to 12) Change Flag

  - NSLDS Loan (7 to 12) Program Code

  - NSLDS Loan (7 to 12) Net Amount

  - NSLDS Loan (7 to 12) Current Status Code

  - NSLDS Loan (7 to 12) Current Status Date

  - NSLDS Loan (7 to 12) Aggregate Principal Balance

  - NSLDS Loan (7 to 12) Aggregate Principal Balance Date

  - NSLDS Loan (7 to 12) Begin Date

  - NSLDS Loan (7 to 12) End Date

  - NSLDS Loan (7 to 12) GA Code

  - NSLDS Loan (7 to 12) Contact Type

- The following fields were added to the ISIR record layout

  - Verification Tracking Flag

  - NSLDS Loan (1 to 6) Amount of Last Disbursement

  - NSLDS Loan (1 to 6) Date of Last Disbursement

- The Sources of Assistance in this section have been removed. You can find all the important telephone numbers, fax numbers, e-mail addresses, Web sites, and services in a new document called *Sources of Assistance for Schools* which can be downloaded from **the U.S. Department of Education's Student Financial Assistance Download (SFAdownload) Web site located at SFAdownload.ed.gov**.

- The table, SAR/ISIR Correction Flags and Highlight Flags in section 4 of this document has been renamed to Field Name and Position Cross-Reference. It contains two new columns, Correction Flag Position and Highlight Flag Position, which define the specific position for the flags. In the past, this table contained general references to the positions.

- The NSLDS Loan Current Status Codes table has been modified.

- The comment codes have been removed from the EDE Technical Reference. You ~~will be able to~~ *can* download the *2002-2003 SAR/ISIR Comment Codes and Text* from **the SFAdownload Web site located at SFAdownload.ed.gov**. It will contain the text for all the comment codes.

- The following message classes were deleted as a result of changes to the electronic Renewal Application process:

  - RAPRXXOP - Renewal Application Rejects

  - REAPXXIN - Renewal Applications

  - REAPXXOP - Renewal Application ISIRs

- The data description types have changed in the following message classes:

  - EREPXXOP -from Renewal Requests (RAD) errors to PIN Mailer Request Errors

  - RADDXXIN - from Renewal Data Requests (RAD) to PIN Mailer Requests

- RADDXXOP - Renewal Data from RAD Requests to RAPP/PIN Print Notification File. This file notifies you of the type of renewal correspondence the student received: a paper Renewal or a PIN Mailer. This file was previously 460 bytes. It has been shortened to 185 bytes.

- The lengths of the following record layouts and message classes were modified from 2850 bytes to 2450 bytes, where XX equals the process year:

  - CORRXXOP

  - EAPSXXOP

  - ESFNXXOP

  - ESFRXXOP

  - FDRXXOP

  - SARAXXOP

  - SYSGXXOP

  - YTDNXXOP

  - YTDRXXOP

  - YTDOXXOP

- The HOLDXXOP record layout and message class increased to 200 bytes from 150 to accommodate the e-mail address field

- ***Modified the end year range, for Reject Reason A, from 1917 to 1927***

- Record level reject 18 was added to inform a school that an application or renewal application with the same SSN and Name ID is already on file on the CPS database.

- There is a new procedure for you to test your systems. Consequently, we have added the following message classes that are used for testing.
  - TAPS03IN   Test System – Applications
  - TCOR03IN   Test System – Corrections
  - TAPE03OP   Test System – Application Errors
  - TCOE03OP   Test System – Correction Errors
  - TAPS03OP   Test System – Application ISIRs
  - TCOR03OP   Test System – Correction ISIRs
  - TSAR03OP   Test System – Automatic ISIRs

What's Changed in the Record Layouts Since the NASFAA Version?

There has been one field position change to the ISIR record layouts, see the changes listed under ISIR Record Description/Data Dictionary. There are changes to some Record Layout names, descriptions and valid field content. The changes are listed below.

- The following Record Layouts from section 3 have been renamed:

  - Type 2 Individual PIN Request Export and PIN Error Import Record Layout changed to Type 2 Individual PIN <u>Mailer</u> Request Export and PIN Error Import Record Layout

  - RAPP PIN Print Notification Layout was renamed to RAPP PIN/Print Notification Layout

  - Initial Application Export Record Layout was renamed to FAFSA Application Export Record Layout

  - Institution Student E-FAFSA/Web Hold Information Record Layout was renamed to FAFSA Express/Web Hold Information Record Layout

- EDE Record Level Error Report Import Record Level

  - Removed RAPR03OP from the list of message classes, this message class was eliminated as a result of changes to the Renewal Application process.

  - Removed the description under Student's Last Name. The description in this layout was not necessary.

- ISIR Record Description/Data Dictionary

  - Field 41, Student's Tax Return Completed?, changed value of 2 = Will Complete to Will File.

  - Field 75, Parents' Tax Return Completed?, changed value of 2 = Will Complete to Will File.

  - Field 150, Secondary INS Match Flag, added value P = Pending Results of Secondary Confirmation.

  - Added Verification Tracking Flag which is field 270. Because of a new field the remaining field numbers have been incremented. This field will not print on the ISIR or the SAR.

- FAFSA Application Export Record Layout

  - Field 36, Student's Tax Return Completed?, changed value of 2 = Will Complete to Will File.

  - Field 70, Parents' Tax Return Completed?, changed value of 2 = Will Complete to Will File

- Type 2 Individual PIN Mailer Request Export and PIN Error Import Record Layout

  - Field 15, Federal School Code, description under the valid field content was changed to be more descriptive.

  - Field 18, PIN Mailer Indicator, the text describing the value of Y was modified.

- RAPP PIN/Print Notification Layout

  - Field 17, Institution Number field name was renamed to Federal School Code.

- The Valid Content for E-mail address has changed in section 4.

Getting Help

If you have concerns or questions regarding this technical reference please contact CPS/WAN Technical Support. Listed below are the areas CPS/WAN Technical Support can assist you with. For a complete listing of all SFA sources of assistance go to *the SFAdownload Web site located at* **SFAdownload.ed.gov** to download *the Sources of Assistance for Schools* guide.

CPS/WAN Technical Support   800/330-5947

Telecommunications Device for the Deaf (TDD/TTY)   800/511-5806

E-mail: *cpswan@ncs.com*

SFA Technical Support: **ed.gov/offices/OSFAP/sfatech/listserv.html**

Fax: 319/358-4260

Working hours are 7 a.m. – 7 p.m. (CT), Monday through Friday

EDE Processing

Introduction

This section provides a more detailed description of the EDE process. It provides instructions for each of the individual processes within EDE.

Electronic FAFSA

The Electronic FAFSA process allows destination points to enter FAFSA data and send it to the Central Processing System (CPS) for processing. The FAFSA data can be collected on either a paper Renewal FAFSA or the Free Application for Federal Student Aid (FAFSA). Once processed by CPS, the results of the Electronic FAFSA are transmitted back to the destination point.

EDESuite software is provided free to destination points by the U.S. Department of Education (ED). It allows financial aid administrators (FAAs) to enter the FAFSA information into a personal computer. However, schools may choose to develop their own software instead. Regardless of whether the FAFSA data is entered using EDExpress or other software, the data must adhere to ED's editing rules in order to be accepted by CPS.

The remainder of this section includes specifications for developing software to provide the required Electronic FAFSA functions.

Electronic FAFSA Process

The Electronic FAFSA process involves five steps:

1. The student submits a completed and signed paper FAFSA to the school.

2. The information on the FAFSA is key entered.

3. The FAFSA data is edited and corrected until a file of clean data is created. The data elements for each field must be in the valid range with no inconsistencies in the data. For example, the system will generate an edit for inconsistent data in these fields when a student indicates a single status yet provides income earned from work for student and spouse.

4. The file is formatted and transmitted to CPS via the Student Aid Internet Gateway (SAIG).

5. Processed FAFSA records are transmitted back to the destination point as Institutional Student Information Records (ISIRs) under the message class EAPS03OP.

Receiving the Completed Paper FAFSA or Paper Renewal FAFSA

Schools participating in Electronic Applications must have their students complete and sign a paper FAFSA or paper Renewal FAFSA. ED provides the FAFSA form. The completed and signed document must be kept on file at the school. If a student submits a paper Renewal FAFSA to the school, the Renewal FAFSA should be entered as a FAFSA.

Entering the FAFSA Information

As part of the FAFSA entry, you are responsible for ensuring that the data meets the field-by-field criteria provided in the 'Valid Field Contents' column of the FAFSA Application Export Record Layout. The record created by your software must adhere to the record layout provided later in the Record Layout section with the addition of a Carriage Return/Line Feed (CR/LF, ASCII 13, 10 HEX 0D and 0A respectively) at the end of each record. Use of an end-of-file mark (ASCII 26 or HEX 1A) is optional. FAFSAs with invalid dates or formats are rejected.

Formatting and Transmitting the Records

Use EDconnect, the transmission software provided by ED, to format your data records and transmit them over SAIG. The batch Header and Trailer Records are provided in the Record Layouts section. Each batch to be transmitted must start with a Header Record followed by the data records followed by the Trailer Record.

Receiving Processed Records

You receive your processed FAFSA records in ISIR format in the EAPS03OP message class.

Note: See the Printing section for more information on printing ISIRs.

There may be instances when CPS does not accept your records for processing. CPS returns a rejected electronic FAFSA error report to you in the message class EAPR03OP. The Record Layouts section contains two reject layouts. The first is for rejects at the batch level (the whole batch rejects), EDE Batch Level Error Report Import Record Layout. The second is for rejects at the record level (individual record(s) reject), EDE Record Level Error Report Import Record Layout. The Processing Codes section contains additional information on the reject reasons found in the record layout.

Rejected FAFSA Records

There are two categories of rejections for submitted FAFSA records:

1. Transaction Rejects
A transaction reject prevents the FAFSA record from being processed. If a record is rejected for one or more reasons, an error report is returned to the school in message class EAPR03OP (see layout in the Record Layouts section) and no ISIR is created. These rejects are also known as record level rejects.

2. Compute Rejects

CPS contains a series of edits that evaluates data on incoming FAFSA data for consistency and completeness. These edits apply to all data from electronic and paper input. An Expected Family Contribution (EFC) is not computed for a FAFSA rejected for a compute reject reason. However, an ISIR is produced. ISIRs with a compute reject are returned in the EAPS03OP message class. The reasons for the compute reject are coded on the ISIR. Refer to the Processing Codes section for information on interpreting these reject codes.

There are two types of FAFSA compute reject reason codes:

- Numeric: Certain data items MUST be corrected before a valid ISIR can be generated (Non-Verifiable).

- Alphabetic: Certain data items MUST be either corrected or verified before a valid ISIR can be generated (Verifiable). An alpha reject reason code is a verifiable data element, meaning the data given is questionable but could be correct.

In the paper system, a student can verify a data field by re-entering the same information in the Student Aid Report (SAR) correction column for the field in question. In the electronic process, the school verifies the data (re-enters the data as a "correction") and transmits the correction record to CPS. Data that must be verified or corrected in response to each reject reason is provided in the Processing Codes section.

A student's record will not have an EFC if the record contains questionable data and has a FAFSA reject reason code(s). The reject reason code(s) are found in positions 611-624 on the ISIR. The Table of Reject Codes and How to Respond to each is found in section 4 of this document.

Electronic PIN Mailer Requests

Schools can request that PIN mailers be sent to eligible applicants instead of the paper Renewal FAFSA. The PIN would allow the student to access their electronic 2002-2003 Renewal FAFSA data on the Web. Renewal FAFSAs are for returning students. The Renewal FAFSA displays the 2001-2002 information. The student applicant either verifies that the 2001-2002 information is still correct for 2002-2003 or updates the information on file at the Central Processing System (CPS) as of October 2001.

The Renewal FAFSA process has changed significantly for the 2002-2003 year. Please refer to section 1, Overview, and to Action Letter 1 on changes to the Renewal FAFSA process, available on the IFAP Web site (ifap.ed.gov) for additional information.

Renewal PIN Mailer Process

There are two options to request that PIN Mailers be sent to the student instead of paper Renewal FAFSAs:

1. Type 2 Request - This request is sent via SAIG. You will need to create a file that contains a CPS Header, Type 2 Individual PIN Mailer Request Export and PIN Error Import Record Layout, and the CPS Trailer. All of these layouts are found in section 3, Record Layouts.

2. FAA Access - Use FAA Access over the Web to make your request.

After the Renewal FAFSAs are printed, each destination point will receive a report in the format of the RAPP PIN/Print Notification layout, found in section 3, Record layouts. This report will identify which students received a paper Renewal FAFSA or a PIN mailer.

If a student returns a completed Renewal FAFSA to the school, the data can be entered, edited, and transmitted to CPS as if it were a FAFSA.

ISIR

The ISIR is a fixed-length record containing reported information from the FAFSA), as well as key processing results. The names and addresses of the colleges the student plans to attend in 2002-2003 are translated to a 6-digit identifying Federal School Code on the ISIR. The preparer's name or address is not entered by the MDEs (application processors). For the most part, all information printed by CPS on SAR is coded on the ISIR.

Note: The average CPS processing time is between 48-52 hours.

NSLDS Data

The ISIR carries National Student Loan Data System (NSLDS) information, which is located at the end of the ISIR Record Description.

ISIR Receipt Process

ISIRs are transmitted by CPS to the SAIG in batches containing a batch header record, one or more ISIRs, and a batch trailer record. Descriptions of the contents of the ISIR are in the Record Layouts section. CPS Header and Trailer records are described in the Record Layouts section and at the end of this section.

ISIR Types

There are four reasons why CPS generates an ISIR:

1. ISIRs are automatically generated in response to a FAFSA or correction entered at a site other than your school or state agency. These "automatic ISIRs" are generated following the entry of a paper FAFSA or SAR by the MDE application processors or by an electronic FAFSA from the FAFSA Express, FAFSA on the Web, Renewal on the Web, or Correction on the Web user. They may also be produced following the entry of an electronic FAFSA or correction by another EDE school. ISIRs resulting from students correcting their data on the Web are sent to the school this way.

Automatic ISIRs are sent to school destination points in the SARA03OP message class. State agencies receive Non-Resident ISIRs in the ESFN03OP message class and Resident ISIRs in the ESFR03OP message class.

2. ISIRs are generated in direct response to electronic FAFSAs, correction/duplicate records, and signature correction records submitted by your school. ISIRs are returned to destination points in the EAPS03OP, CORR03OP, and SARA03OP message classes, respectively.

3. ISIRs are generated in response to a request by state agencies through the Federal Data Request (FDR) process. This process allows agencies to request a processed FAFSA record for any student on CPS database. ISIRs are returned to the State agency's destination point in FDRF03OP message class.

4. ISIRs are system-generated due to reprocessing by CPS, NSLDS post-screening, INS Secondary process, Prisoner match, and an applicant being released from a hold file. These ISIRs are returned in the SYSG03OP message class. Any ISIR that has a value in the systems generated field are returned in the SYSG03OP message class except when the value is L, duplicate request, or blank.

Automatic ISIRs for Schools

All automatic ISIRs (for example, ISIRs generated in response to input by a site other than your school or state agency) are transmitted daily from CPS to the SAIG in message class SARA03OP for schools, ESFR03OP (state residents), or ESFN03OP (non-residents) for state agencies.

Each school subscribing to the ISIR service automatically receives one ISIR for every student who lists their school on the FAFSA. Servicers receive only one ISIR per destination point.

If an ISIR receives a reject code of 14, 15 or 16 (missing signatures), the school and state agency receive the full ISIR electronically. As with other rejects, an EFC is not computed until the reject is resolved.

Requested ISIRs

Requested ISIRs are generated in response to input from the school or state agency. ISIRs requested by schools are transmitted to the SAIG in one of four message classes, depending upon the type of input.

* EAPS03OP
  ISIRs in this message class are returned to the school in response to electronic FAFSAs. The school receives one ISIR for every FAFSA submitted that did not receive a transmission reject. Refer to the Record Layouts section for EDE Batch or EDE Record Level Error Report Record Layout and Processing Codes section for batch and record level reject error messages.

* CORR03OP
  ISIRs in this message class are returned to the school in response to electronic corrections or duplicate requests. The school receives an ISIR for every correction or duplicate request submitted that did not receive a transmission rejection. Refer to the Record Layouts section for the EDE Record Level Error Report Import Record Layout, and the Processing Codes section for record level error messages.

  Note: A school, with the student's consent, is able to electronically add its Federal School Code to the list of school choices on the student's ISIR record with the Data Release Number (DRN). Instructions for this are explained later in this section.

- SYSG03OP

  ISIRs in this message class are sent to the school as a result of a transaction automatically created by CPS. The school does nothing to initiate these ISIRs. There are several instances when CPS generates an ISIR for a student:
  - Hold File status changes
  - CPS Reprocessing of records due to formula changes
  - CPS receives changed information via NSLDS Post-Screening INS Secondary Match
  - Prisoner post-screening

- SARA03OP

  Requested ISIRs in this message class are sent to the school as a result of the school sending a signature for an applicant and/or the parent who filed using one of the Web products or FAFSA Express. Automatic ISIRs in this message class are also received from paper FAFSAs and corrections, from another school filing an electronic FAFSA or electronic correction with your school listed, or a student filing a FAFSA on the Web or making corrections on the Web.

State Agency Options

State agencies can combine processed FAFSA data from CPS with common loan application data to guarantee federal student loans and/or with state data to award state scholarships and grants.

As destination points, state agencies have two options for obtaining processed FAFSA data:

- Automatic ISIR Processing
- Federal Data Request (FDR)

Automatic ISIRs for State Agencies

Each state agency subscribing to the ISIR service can choose to automatically receive one ISIR for every student who:

- Indicates that state on the FAFSA as the state of legal residence
- Is a non-resident but lists a college within the state
- Both

Note: If the student indicates on the FAFSA more than one school that is located in your state, your state agency receives only one ISIR.

Automatic ISIRs are transmitted daily from CPS to the SAIG in one of two message classes:

> ESFR03OP   State Agency ISIR Resident
> ESFN03OP   State Agency ISIR Non-resident

Note: The state agency indicates what type of ISIRs (residents, non-residents or both) it wants to receive on the SAIG Agency Enrollment Form.

Federal Data Request Processing (FDR)

A Federal Data Request (FDR) is the process by which a state agency can request the electronic processed FAFSA record for any student in the CPS database.

In the case of students who are neither residents of the state nor attend a school in the state, an FDR can be made if the student has signed a loan or state grant application that releases CPS data to the state agency. The agency must retain the signed FAFSA. When requesting and receiving this data from CPS, use the following message classes:

> FDRS03IN   FDR Request
> FDRF03OP   Processed FDRs
> FDRU03OP   Unfulfilled FDRs not on CPS
>   Database after 30 days

Requesting a FDR Record

To request a specific applicant's record, the agency must transmit over the SAIG the Social Security Number (SSN) and the first two letters of the last name. Use the record layout FDR Export Record Layout (FDRS03IN) in the Record Layouts section. Use the following steps to create a request for a single applicant's record:

1. In the first position of the record, enter 3 to indicate this is a request for a 2002-2003 applicant transaction.

2. Leave positions 2 through 14 blank.

3. Enter 199 in positions 15 through 17. This indicates a request for an ISIR record.

4. Enter the student's SSN as reported on the original FAFSA in positions 18 through 26.

5. In positions 27-28, enter the first two letters of the student's last name as entered on the original FAFSA.

6. Leave positions 29 through 579 blank.

7. Enter F (FDR) in position 580.

Remember, prior to sending the file, you must add a header record before the FDR request record(s) and a trailer record after the FDR request record(s).

Requesting More than One FDR Record

Up to 12 FDRs can be requested on a single record (message class FDRS03IN). To request up to 12 records, repeat steps 4 and 5 using the remaining data fields on the FDR record. The second record begins in position 53, the third in position 91, the fourth in position 129, the fifth in position 167, the sixth in position 205, the seventh in position 243, the eight in position 281, the ninth in position 319, the tenth in position 357, the eleventh in position 395, and the twelfth in position 433.

To request more than 12 ISIRs, create an additional record by repeating steps 1 through 7.

Response to an FDR Request

State agencies receive one batch of ISIRs in response to each batch of FDR records submitted. The batch of ISIRs will be returned in the FDRF03OP message class. It contains one ISIR for every submitted FDR record that was not rejected.

If a requested student record is not found on the CPS database after 30 days, a notice is returned to the requesting agency in message class FDRU03OP.

Rejected FDR Records

A transaction reject prevents the FDR record from being processed at CPS. If a record is rejected for one or more reasons, an error report is returned to the agency in a message class titled FDRE03OP.

Electronic Corrections

Schools with destination points enrolled for electronic correction processing are able to transmit corrections to FAFSA data via the SAIG.

EDExpress allows schools to enter and edit correction data according to system requirements. It also creates an electronic correction record ready for transmission using the communications interface software, EDconnect. Schools, however, may choose to develop their own software to enter, edit, and format correction data. Specifications for developing correction software are provided in the remainder of this section.

General Correction Entry Specifications

Only corrected information from a student's record, not the complete applicant record, is transmitted to CPS. This approach minimizes the transmission volume. Corrected information is transmitted as a fixed-length record. The layout and description of this record is in the Record Layouts section, Correction Export Record Layout (CORR03IN).

Creating a Correction Record

Use the following steps to create a correction record:

1. In the first position of the record, enter 3 to indicate this is a correction to a 2002-2003 applicant transaction.

2. In positions 2 through 10, enter the applicant's original Social Security Number (SSN). This is the number reported by the applicant on the FAFSA form and does not reflect any corrections to the SSN that might have been made.

3. In positions 11 and 12, enter the first two letters of the applicant's last name. These are the letters reported by the applicant on the FAFSA form and do not reflect any corrections to the last name that might have been made.

4. In positions 13 and 14, enter the transaction number of the applicant record being corrected. For example, enter 01 to correct the first transaction on file at CPS. The transaction does not necessarily have to be the latest one on file at CPS. If the transaction number being corrected is not on the CPS database, the record is rejected. If you want to correct the most recent transaction, you can enter 99.

    Note: When making a correction using transaction 99, field number 086 (the first Federal School Code) and field number 112 (DRN) must be provided on the record.

5. In positions 15 through 17, enter the SAR number of the SAR field being corrected. Each correctable field has a 3-digit SAR number associated with it. For example, enter 001 to correct the student's last name. The SAR numbers with valid field content are provided in the Correction Data Entry Specifications table found in the Processing Codes section.

6. In positions 18 through 52, enter the new value for the field being corrected.

7. In positions 471 through 476, enter the Federal School Code of the school making the correction.

8. In positions 477-526, enter or correct the student's e-mail address.

9. In positions 553-560, enter the transaction receipt date. This is the date you received the correction information from the student.

10. In positions 575-579, enter the serial number, the sequential position of the correction record in the batch. For example, the first student's correction record will have a serial number of 00001, and the second student's serial number will be 00002, etc.

11. In position 580, enter H (correction).

Up to 12 SAR data fields can be corrected on a single record. Repeat steps 5 and 6 using the remaining data fields on the correction record if more than one field is being corrected. If more than twelve fields require correction, an additional record must be created, repeating steps 1 through 10. Both data records for the student have the same serial number.

Note: To correct a field to blank, enter a single asterisk (*) left justified in that field. The Correction Data Entry Specification table, in section 4, distinguishes which fields can be corrected to blank as not all fields can be.

Detailed Data Entry Specifications

Each corrected value must meet certain standards; otherwise, the correction record is rejected. Field-by-field data entry specifications are provided in the Processing Codes section. For each field, these specifications identify the type (character, numeric, or signed/numeric), acceptable length, whether the field is correctable, whether the field is correctable to blank, and the valid values for the correction. Keep the following items in mind:

- Left-justify the corrected value within the data field on the correction record, while zero filling numeric fields up to the valid maximum length of the field and leaving empty positions to the right blank. For example, to correct the number of family members to 5, enter 05 in positions 18 and 19, leaving positions 20 through 52 blank. To correct the student's last name to Smith, enter SMITH in positions 18 through 22, leaving positions 23 through 52 blank.

- All 9s in a field indicate the reported or calculated value is greater than or equal to the value of all 9s. Blanks are allowable in some fields.

- Fields can contain one of three data types:
  - Character
  - Numeric
  - Signed Numeric

- A negative entry is acceptable for a limited number of fields. The Correction Data Entry Specifications table in the Processing Codes section identifies the fields in which a negative is acceptable under the Justify/Signed column and the valid field content column. The Signed Numeric Field table below also defines the signed fields. With signed numeric fields, the sign is always implied in the right most character of the field. For example, if the Student's Adjusted Gross Income field contains a value of negative 3507, it appears as 00350P. The following chart explains the conversion of the sign and the number:

Signed Numeric Fields:

{	+0	E	+5	}	-0	N	-5
A	+1	F	+6	J	-1	0	-6
B	+2	G	+7	K	-2	P	-7
C	+3	H	+8	L	-3	Q	-8
D	+4	I	+9	M	-4	R	-9

The table listed on the next three pages defines all the signed fields that can be sent to and received from CPS.

Signed Numeric Fields Table

ISIR FIELD #	SAR FIELD #	FIELD LENGTH	FIELD NAME	VALID FIELD CONTENT	FOUND ONLY ON ISIR
44	039	6	Student's Adjusted Gross Income from IRS form	-999999 to 999999 Blank	N
47	042	6	Student's Income Earned from Work	-999999 to 999999 Blank	N
48	043	6	Spouse's Income Earned from Work	-999999 to 999999 Blank	N
78	073	6	Parents' Adjusted Gross Income from IRS form	-999999 to 999999 Blank	N
81	076	6	Father's/Stepfather's Income Earned from Work	-999999 to 999999 Blank	N
82	077	6	Mother's/Stepmother's Income Earned from Work	-999999 to 999999 Blank	N
195		7	TI: Total Income	-9999999 to 9999999 Blank = None Calculated	Y
197		7	STX: State and Other Tax Allowance	-9999999 to 9999999 Blank = None Calculated	Y
200		7	AI: Available Income	-9999999 to 9999999 Blank = None Calculated	Y
201		7	CAI: Contribution From Available Income	-9999999 to 9999999 Blank = None Calculated	Y
202		9	DNW: Discretionary Net Worth	-999999999 to 999999999 Blank = None Calculated	Y
205		7	PCA: Parents' Contribution from Assets	-9999999 to 9999999 Blank = None Calculated	Y
206		7	AAI: Adjusted Available Income	-9999999 to 9999999 Blank = None Calculated	Y
210		7	STI: Student's Total Income	-9999999 to 9999999 Blank = None Calculated	Y
211		7	SATI: Student's Allowance against Total Income	-9999999 to 9999999 Blank = None Calculated	Y
213		9	SDNW: Student's Discretionary Net Worth	-999999999 to 999999999 Blank = None Calculated	Y
214		7	SCA: Student's Contribution from Assets	-9999999 to 9999999 Blank = None Calculated	Y

Signed Numeric Fields Table (Continued)

ISIR FIELD #	SAR FIELD #	FIELD LENGTH	FIELD NAME	VALID FIELD CONTENT	FOUND ONLY ON ISIR
215		7	FTI: FISAP Total Income	-9999999 to 9999999 Blank = None Calculated	Y
216		7	SEC TI: Secondary Total Income	-9999999 to 9999999 Blank = None Calculated	Y
218		7	SEC STX: Secondary State Tax Allowance	-9999999 to 9999999 Blank = None Calculated	Y
221		7	SEC AI: Secondary Available Income	-9999999 to 9999999 Blank = None Calculated	Y
222		7	SEC CAI: Secondary Contribution From Available Income	-9999999 to 9999999 Blank = None Calculated	Y
223		9	SEC DNW: Secondary Discretionary Net Worth	-999999999 to 999999999 Blank = None Calculated	Y
226		7	SEC PCA: Secondary Parents' Contribution from Assets	-9999999 to 9999999 Blank = None Calculated	Y
227		7	SEC AAI: Secondary Adjusted Available Income	-9999999 to 9999999 Blank = None Calculated	Y

236		7	SEC FTI: Secondary FISAP Total Income	-9999999 to 9999999 Blank = None Calculated	Y
239		6	Assumed Student's AGI	-999999 to 999999 Blank = No assumption	Y

Signed Numeric Fields Table (Continued)

ISIR FIELD #	SAR FIELD #	FIELD LENGTH	FIELD NAME	VALID FIELD CONTENT	FOUND ONLY ON ISIR
241		6	Assumed Student's Income from Work	-999999 to 999999 Blank = No assumption	Y
242		6	Assumed Spouse's Income from Work	-999999 to 999999 Blank = No assumption	Y
256		6	Assumed Parents' AGI	-999999 to 999999 Blank = No assumption	Y
258		6	Assumed Father's/Stepfather's Income Earned from Work	-999999 to 999999 Blank = No assumption	Y
259		6	Assumed Mother's/Stepmother's Income Earned from Work	-999999 to 999999 Blank = No assumption	Y

Making Signature Corrections

Signature information is required to resolve signature rejects (rejects 14, 15 and 16). Signature information does not need to be provided on other standard corrections unless you are using 99 as the transaction number. If you have a transaction that was a reject 14, 15 or 16, simply correct SAR field #099 (Signed By) to A (Applicant) or B (Both = Student and Parent), as appropriate.

If you need to add a signature to a student's record on the Web hold file you must use the layout for Signature Correction Export Record Layout (SIGS03IN) found in section 3, Record Layouts. You can correct the student or parent signature using this layout. You must make sure the student included your school on the FAFSA or correction.

Adding Your Federal School Code to Receive Electronic Data

A school cannot make an electronic correction unless the school has been designated on the applicant transaction. You can add your Federal School Code to the list of schools receiving data electronically along with correcting other fields on the record by using the Correction Record layout (CORR03IN).

Follow these steps to add your Federal School Code and/or to make corrections:

1. In the first position of the record, enter 3 to indicate that this is a correction to a 2002-2003 applicant transaction.

2. In positions 2 through 10, enter the applicant's original SSN. This is the number reported by the applicant on the FAFSA form and does not reflect any corrections to the SSN that might have been made.

3. In positions 11 and 12, enter the first two letters of the applicant's last name. These are the letters reported by the applicant on the FAFSA form and does not reflect any corrections to the last name that might have been made.

4. In positions 13 and 14, enter the transaction number of the applicant record being corrected. For example, enter 01 to correct the first transaction on file at CPS. The transaction does not necessarily have to be the latest one on file at CPS. If the transaction number being corrected is not on the CPS database, the record will be rejected. You can use transaction 99 to add your school code to the most recent transaction on the CPS Database.

5. Enter 112 in the SAR Field Number Correction #1 field, positions 15 through 17 (corresponding to the SAR Field #112, the Data Release Number (DRN).)

6. Enter the student's DRN in Correction Data 1 field, positions 18 to 52 (Remember to make it left justified, and leave any unused bytes blank.)

   Note: A unique DRN is assigned to each Title IV applicant. It appears only on paper SARs and ISIR records generated in response to electronic FAFSAs. If a valid DRN is not present on the correction record containing the Federal School Code change, the record is rejected.

7. Enter the SAR field number associated with the Federal School Code position being changed in the SAR Field Number Correction #2 field, positions 53 through 55. Possible field numbers are 086, 088, 090, 092, 094, and 096.

8. Enter the Federal School Code in the Correction Data 2 field positions 56 to 61. Leave positions 62 to 90 blank.

   • The number can be changed only to the number of the participating Electronic Data Exchange (EDE) school. You also must enter this number in the EDE Federal School Code field, (position 471-476). If the codes in these two fields do not match, the record is rejected.

   • Schools may modify the Federal School Code and make other corrections to the applicant record on the same correction transaction.

9. Enter the date you created this record in positions 553-560, the EDE Transaction Receipt Date in CCYYMMDD format.

10. Enter 00001 in positions 575-579, the serial number field. If you exceed 12 corrected fields, create a new record. The serial number on the second record is also 00001. The serial number increments with a second student's record.

11. Enter an "H" for Correction in position 580, Record Type.

Tips for Corrections

When your school submits an ISIR correction to CPS, we use the transaction number provided in positions 13 to 14 as a template. We make changes to the fields you indicated, leaving other fields unchanged. Your Federal School Code must be one of the six listed, but it does not have to be the first college choice on the transaction to be processed by CPS. You receive the processed results in the CORR03OP message class; all other schools listed on the transaction will receive the new ISIR in the SARA03OP message class.

If you are submitting a Dependency Override or FAA Adjustment (professional judgment) as part of the correction record, only your school receives the resulting corrected ISIR transaction. Also, do not send a Dependency Override correction with a FAA Adjustment to a transaction without an EFC. If there is no EFC, first send the Dependency Override with any other corrections necessary to obtain an EFC. Then, submit the FAA Adjustment to the transaction with the dependency override and the EFC.

Requesting a Duplicate ISIR

Schools request duplicate ISIRs using the correction message class (CORR03IN). To see a full record layout refer to the Record Layout section under Duplicate Request Export Record Layout. Use the following steps to create a record requesting a duplicate ISIR:

1. In the first position of the record, enter 3 to indicate that this is a correction to a 2002-2003 applicant transaction.

2. In positions 15 through 17, enter 199. This signifies a request for an ISIR record. (Note: Leave positions 2 through 14 blank.)

3. In positions 18 through 26, enter the applicant's original Social Security Number (SSN). This is the number reported by the applicant on the FAFSA form and does not reflect any corrections to the SSN that might have been made.

4. In positions 27 and 28, enter the first two letters of the applicant's last name. These are the letters reported by the applicant on the FAFSA form and do not reflect any corrections to the last name that might have been made.

5. In positions 29 and 30, enter the transaction number of the applicant record being requested. For example, enter 01 to request the first transaction on file at CPS. The transaction does not necessarily have to be the latest one on file at CPS. If the transaction number being requested is not on the CPS database, the record is rejected. You can use transaction '99' to request the most recent transaction on the CPS database provided your Federal School Code is listed on the most recent transaction.

6. In positions 471 through 476, enter your Federal School Code.

7. In positions 553 through 560, enter the Transaction Receipt Date, the date you are requesting the duplicate transactions.

8. In position 580, enter D (duplicate) for the Input Record Type.

Up to 12 duplicate ISIRs can be requested on a single record. Repeat steps 2 and 3, using the remaining data fields of the layout to request more than one record. If more than 12 ISIRs are required, then create an additional record by repeating steps 1 through 6.

Note: The school can request, as a duplicate, any existing transaction for a student as long as that transaction number contains the school's Federal School Code. Transaction 99 can be used as described in step 5 above. If the latest transaction on the CPS database does not include that school, the request is rejected.

Response to a Correction/Duplicate Record

Schools receive one batch of ISIRs for each batch of correction records submitted. The batch, or message class, of ISIRs is titled CORR03OP. It contains one ISIR for every submitted student correction or student duplicate request, not rejected for a transaction reject reason.

Rejected Correction/Duplicate Records

There are two categories of rejections for submitted correction records, transaction and compute rejects.

1. Transaction Rejects

A transaction reject prevents the correction record from being applied to the student's record. If a record is rejected for one or more reasons, the school receives an error report in message class CORE03OP (see EDE Record Level Error Report Import layout in the Record Layouts section). No ISIR is created.

2. Compute Rejects

CPS contains a series of edits that evaluate all incoming FAFSA and correction data for consistency and completeness. These edits apply to all data from electronic, Web, and paper input. An Expected Family Contribution (EFC) is not computed for a correction rejected for a compute reject reason. However, an ISIR is produced. Correction and duplicate ISIRs with a compute reject are returned in the CORR03OP message class. The reasons for the compute reject are coded on the ISIR in positions 611-624. Refer to the Processing Codes section for information on interpreting these reject codes.

There are two types of FAFSA compute reject reason codes:

- Numeric: Certain data items MUST be corrected before a valid ISIR can be generated (Non-Verifiable).

- Alphabetic: Certain data items MUST be either corrected or verified before a valid ISIR can be generated (Verifiable). An alphabetic reject reason code is a verifiable data element, meaning the data given is questionable but could be correct.

In the paper system, a student can verify a data field by re-entering the same information in the SAR correction column for the field in question. In the electronic process, the school may verify the data (re-enter the data as a "correction"), or set the appropriate reject override (found at the end of the CORR03IN record layout in positions 527-535), and transmit the correction record to CPS. Data that must be verified or corrected in response to each reject reason is provided in the Processing Codes section.

A student's record may not have an EFC if the record contains questionable data and has an FAFSA reject reason code(s). The reject reason codes are found in positions 611-624 on the ISIR. They explain the questionable and highlighted field(s).

CPS Header and Trailer Records

Data transmitted through the SAIG are separated by message class for identification and processing purposes. Each message class consists of the following segments:

- Header record
- Data record(s)
- Trailer record

Data records vary by processing function. Each record format is provided in the Record Layout section of this Technical Reference.

Each batch of data records must be preceded by a header record and followed by a trailer record. The end of each record (header, trailer, and data) is marked by a CR/LF (carriage return/linefeed, ASCII 13, 10). An EOF marker (end of file, ACSII 26) is optional.

The format and content of header and trailer records are found in the Record Layout section:

- Received from the Central Processing System (CPS) message header and trailer records – those records produced by CPS to send to the destination point, such as SARA03OP.

- Sent to CPS message header and trailer records –those records produced by the destination point to send to CPS, such as CORR03IN messages.

Note the following about batch headers and trailers:

- The header and trailer records are the same lengths as the detail (data) records.

- Only data records of the same type (for example, FAFSAs) and the same year can be batched together. (There is one exception – Corrections and Duplicates can be batched together.)

- The Counts in the trailer are for the number of student records, not the number of data records.

Note the following about batch numbers:

- Destination points are responsible for supplying a unique batch number on the header and trailer records sent to CPS.

- The structure of the 23-character unique batch number is as follows:

  #X3ZZZZZZCCYYMMDDHHMMSS where,

  #X = the record type indicator, with a pound sign (#) followed by the character below to signify the record type:

  > A = Electronic App ISIRs
  > C = Correction/Duplicate ISIRs
  > E = Automatic ISIRs
  > F = Federal Data Requests
  > G = CPS System Generated
  > I = Year To Date (YTD)
  > K = State Agency Non-Resident ISIRs
  > L = State Agency Resident ISIRs
  > S = Signature Corrections

  3 = year indicator (always "3" for 2002-2003 data)

  ZZZZZZ = the 6-digit valid Federal School Code *or State Agency 3 byte Code followed by 3 spaces*

  CCYYMMDD = the current date in century, year, month, day format

  HHMMSS = the current time in hours, minutes, seconds format

  Example:

  A batch number of #C3E1234520020509141532 signifies a batch of 2002-2003 corrections transmitted to CPS from a school with a 6-digit code of E12345 on May 9, 2002 at 2:15:32 PM.

- Batch level errors can be found in section 4 under Batch Level Error Messages

Note: Non-unique batch numbers are considered a duplicate batch and are not processed by CPS.

Record Layouts

This section provides all the necessary record layouts needed for users to create their own software to participate in the EDE process.

Header Record Sent To/Received From The CPS

Field #	Start	End	Length	Changes	Field Name	Valid Content	Justify
1	1	12	12		Header Record Identifier	CPS HEADER One blank position after CPS, and two blank positions after HEADER	Left
2	13	16	4		Data Record Length Indicates length of the data records	4-digit numeric Right justified, zero filled	Right
3	17	17	1	Deleted R = Renewal Applicat-ions Modified 7	Sent To CPS: Type of Data Transmitted ----------------------- Received From CPS: Filler	A = Initial Applications H = Corrections or Duplicate requests F = FDR Request S = Signature Corrections 7 = PIN Request ----------------------------- For ED Use Only	Left

Processing Codes

This section provides charts and tables that include an explanation of the different reject codes and how to respond to each. Other tables provide information that further explains other processing codes associated with the Central Processing System (CPS) Electronic Data Exchange (EDE) process.

Summary of Tables

In this section, you will find several tables to assist you when reviewing files.

2002-2003 ISIR Cross-Reference

This table is a cross reference of the 2001-2002 Institutional Student Information Record (ISIR) field number, start position, and end position with the 2002-2003 ISIR field number, start position, and end position. It also lists valid field content for the field that has changed from the last year.

E-mail Address Valid Content

This defines the valid content for the E-mail Address field contained in the following layouts in section 3, Record Layouts, of this technical reference:

- ISIR Record Description/Data Dictionary
- RAPP PIN/Print Notification Layout
- FAFSA Application Export Record Layout
- Correction Export Record Layout
- Institution Student FAFSA Express/Web Hold Information Record Layout

Table of Reject Codes and How to Respond to Each

This table is used to determine the meaning of each reject code possible on a Student Aid Report (SAR) or ISIR. The table also outlines how to correct each reject and references comment code numbers associated with the rejects.

Batch Level Error Messages

This table associates reject codes at the batch level and includes the text for that reject code, a description of the error and a resolution. These error messages indicate that the batch was not processed, the structure of the file was not valid, and the Central Processing System (CPS) was not able to process the file. You will need to reformat the file appropriately and again send it to the CPS for processing. No Institutional Student Information Records (ISIRs) will be generated when there is a Batch Level error.

Record Level Error Messages

This table reports the record level reject codes. The actual text for each reject code, a description of the error and a resolution for each error is listed. These error messages indicate that the individual student record was not processed. Any student record in the batch, which does not receive a Record Level Error message, results in a processed ISIR for that student. (Those ISIRs will be sent back later in another file.) You will need to fix any student record with a Record Level Error message and send it to the CPS again for processing so an ISIR will be generated.

Assumption Overrides

This table associates the override codes with the assumption being made. It also explains what will happen if you use this code and an example of when you would use this code.

Field Name and Position Cross-References

This table is used to determine which fields were corrected in the previous transaction or which fields are highlighted on the ISIR. It also defines the field positions for the SAR field, the FAFSA field name, and the question number on the FAFSA. This table was modified from the *2001-2002 EDE Technical Reference* to include the specific field position for the Correction Flag and Highlight Flag.

NSLDS Loan Program Codes

These codes are used to determine the loan program code on up to six loans in the NSLDS portion of the ISIR Record Description/Data Dictionary found in the Record Layouts section of this technical reference.

NSLDS Loan Current Status Codes

These codes are used to determine the current status on up to six loans in the NSLDS portion of the ISIR Record Description/Data Dictionary found in the Record Layouts section of this technical reference.

State/Country/Jurisdiction Codes

This table is used to determine the valid state abbreviations used for the following fields found throughout the Record Layouts section of this technical reference:

- Student's Permanent State
- Student's Driver's License State Code
- Student's State of Legal Residence
- Parents' State of Legal Residence

Correction Data Entry Specifications

This table is used in conjunction with the Correction Export Record Layout found in section 3, Record Layouts. This table defines the SAR field number and field length. It defines what data is valid to send for each SAR field on a correction record. The table also indicates if the SAR field is a signed value, the justification of the SAR field, and if the field can be corrected to blank.

Message Classes

This table lists the message classes associated with Application Processing.

ISIR Comment Codes

This section references where the Comment Codes can be located.

E-mail Address Valid Content

One and only one '@' at-sign allowed.

Before @
- at least one valid character
- all characters in the range of ASCII 33-126, except for the following twelve characters < > ( ) [ ] \ , ; : " @
- period '.' cannot be first, last or adjacent to another period

After @
- at least one valid character
- only letters, digits, hyphen, underscore, and period (A-Z, a-z, 0-9, -, _, .)
- hyphen, underscore, and period cannot be first, last, or adjacent to a period

Table of Reject Codes and How to Respond to Each

*These Alpha reject codes are the same as the Reject Override Codes.

Reject Code	Reject Reason	Action	Comment Code
A	Date of birth year equals 1900 through ~~1917~~ *1927*	Verify or correct the Date of Birth	069
*B	Independent student and date of birth equals 09/01/86 or greater, and date of birth is not equal to or greater than current year.	Verify or correct the Date of Birth	072
C	Taxes paid equal Adjusted Gross Income	Verify or correct Taxes paid	111, 114
*N	Missing first or last name	Verify or correct the student's last name or first name.	080
P	Invalid SSN range	Verify or correct the student's current SSN	023
*W	Questionable number of family members, greater than 15.	If the student is dependent, verify or correct Parents' Number of Family Members. If the student is independent, verify or correct Student's Number of Family Members.	178, 179
1	Simplified needs test is not met and all asset data are blank.	If the student is dependent, provide the following: Parents' Cash, Savings, and Checking; Parents' Real Estate/Investment Net Worth and Parents' Business/Investment Farm Net Worth. If the student is independent, provide the following: Student's Cash, Savings and Checking; Student's Real Estate/Investment Net Worth and Student's Business/Investment Farm Net Worth.	150, 151
2	Incomplete Application or Renewal Application	If the student is dependent, provide Parents' Taxed and Untaxed Income. If the student is independent, provide Student and Spouse (if married) Taxed and Untaxed Income.	129, 130

Table of Reject Codes and How to Respond to Each (Continued)

Reject Code	Reject Reason	Action	Comment Code
5	Missing or invalid Date of Birth	Correct the Date of Birth	018
8	SSN match with Date of Death	Contact the Social Security Administration. The Social Security Number (SSN) on this transaction belongs to a deceased person according to the Social Security Administration.	145
10	Missing marital status and household size	If the student is dependent, review and correct Parents' Marital Status and Parents' Number of Family Members. If the student is independent, review and correct Student's Marital Status and Student's Number of Family Members.	168, 169
11	Marital Status inconsistent with reported incomes	If the student is dependent, review and correct Parents' Marital Status plus Father's/Stepfather's Income From Work and Mother's/Stepmother's Income From Work. If the student is independent, review and correct Student's Marital Status plus Student's Income Earned From Work and Spouse's Income Earned From Work.	089, 099
13	Missing Name	Provide the following: Student's Last Name and/or Student's First Name; Or verify a blank first or last name field if the student actually has only one name.	082
14	Missing student signature on paper application or SAR	Signature correction must be made on a printed Student Aid Report certification page and resubmitted to the FAFSA Processor or may be corrected electronically.	160
15	Missing parent signature on application or SAR	Signature correction must be made on a printed Student Aid Report certification page and resubmitted to the FAFSA Processor or may be corrected electronically.	108

Table of Reject Codes and How to Respond to Each (Continued)

Reject Code	Reject Reason	Action	Comment Code
16	Missing student signature on FAFSA EXPRESS, FAFSA on the Web, or Renewal on the Web Application	Signature correction must be made on a printed Student Aid Report certification page and resubmitted to the FAFSA Processor or may be corrected electronically.	110
17	Unknown citizenship status or student is not an U.S. citizen or eligible non-citizen	Review or correct Citizenship Status	068
18	SSN not on Social Security Administration's database	Correct the Social Security Number, or contact the Social Security Administration for further assistance	024, 062
19	An EFC cannot be calculated because the Department of Education has placed a 'hold' on the student.	Comment 009, student needs to call 202-377-3243 and ask for Debarment and Suspension Specialist	009

Batch Level Error Messages

Error Code	Error Message	Error Resolution and/or Description
02	Invalid Batch Number	Invalid characters in the batch number
03	Invalid Batch Number	EDE batch ID does not match message class
04	Missing Batch Number	EDE batch number is blank or partially blank
05	Batch Computed – Skipping This Batch	Batch number used more than once at the CPS; change the batch number and resubmit
06	Header ID Not = "CPS HEADER"	Batch header ID not equal to 'CPS HEADER'. Review the batch header record layout, make appropriate changes and resubmit the batch.
07	Invalid Batch Type	Invalid batch header/trailer type
09	Invalid Batch Number Date	Invalid batch number date
10	Trailer N-count Not Equal to Actual Count	Batch trailer n-count not equal to actual count
14	Date Signed Before 1/1/02	Date signed month is 11 or 12, year is 02 or 03, and process date is before 3/15/2002

Record Level Error Messages

Error Code	Error Message	Error Resolution and/or Description
01	EDE Inst Number Invalid	Federal School Code indicated is not participating in EDE. Check the code for validity.
02	Inst Code in Batch Not Serviced by Destination	Federal School Code is not valid for destination point.
03	Corr Yr not 3	Process year not equal to 3.
04	At Least One Field Must Be Corrected	No field changes made to this correction record.
05	Not Found on Database	SSN and Name ID are invalid or do not match record on database.
06	DRN Number = ####	Requesting school is not listed on database record and is not included in the correction record with the applicant's correct DRN.
07	Invalid Transaction Number	Blank or invalid transaction number.
08	Trans 99 Requires DRN and Inst. Code	Transaction number equals 99 and Federal School Code and DRN are not included on correction record.
09	Too Many Transactions	Transaction number is greater than 30 Call the regional office of the Department of Education for instructions.
10	(No message)	Attempting to correct a field to blank and the field cannot be corrected to blank.
11	(Various messages; invalid data displayed on error file)	Out of range or invalid value in data field. Review the valid field content in the EDE Technical Reference, and compare it to the data you submitted to the CPS.
12	(No message)	Incorrect field number or missing field number. Verify that field number used was valid on your record.
13	(No message)	Attempting to correct a non-correctable field.

Record Level Error Messages (Continued)

Error Code	Error Message	Error Resolution and/or Description
14	Not on Database	FDR record not found on CPS database
15	Not on Database	FDR record not found on CPS database after 30 days.
16	Institution Already on Record	The only correction being made is to your Federal School Code, which is already listed on this record. If nothing else needs to be corrected you do not need to send this record again. If you have other corrections to this record, make them and send the record again without your school code.
18	Previous Application Already on Database	Application or Renewal Application with the same SSN and Name ID is already on file on the CPS match record on database.

Assumption Overrides

Assumption Override	Assumption Made When Override Flag Is Not present	Results Of Setting Override Before Sending Data Triggering Assumption	Situation
1	Parents' number in college assumed to be 1.	Allow number in college to be greater than 6.	The Parents' Number of Family Members does not equal the number in college. The Parents' Number of college students in the household equals 7 or more.
2	Parents' AGI assumed equal to the sum of the father's/stepfather's and mother's/stepmother's income earned from work.	Allow parents' AGI to be zero if blank or zero is entered.	Parents' AGI is blank or zero. Tax return status is filed, will file, or blank. Father's/Stepfather's income from work or mother's/Stepmother's income from work is positive or negative.
3	Student's number in college assumed to be 1.	Allow number of family members to be equal to the number in college when they are equal and greater than 2.	The independent Student's Number of Family Members equals 3 or more. The Number of College Students in Household is the same value.
4	Student's AGI assumed to be equal to the sum of the student's and spouse's income earned from work.	Allow Student's AGI to be zero if blank is entered.	The Student's AGI is blank or zero. Tax return status is filed, will file, or blank. Student's income from work or spouse's income from work is positive or negative.
5	Parents' income from Worksheet C assumed to be zero.	Allow Parents' income from Worksheet C to be greater than zero and greater than a fixed percentage of the parents' total income.	Parents' Calculated 2001 Tax Status equals filed. Income from Worksheet C is greater than a fixed percentage of Parents' AGI plus Parents' Total from Worksheet A plus Worksheet B. Parents' Calculated 2001 Tax Status equals non-tax filer. Income from Worksheet C is greater than a fixed percentage of Father's/Stepfather's Income From Work, Mother's/Stepmother's Income From Work, and Parents' Total from Worksheet A plus Worksheet B.

Assumption Overrides (Continued)

Assumption Override	Assumption Made When Override Flag Is Not present	Results Of Setting Override Before Sending Data Triggering Assumption	Situation
6	Student's income from Worksheet C assumed to be zero.	Allow Student's income from Worksheet C to be greater than zero, and equal or greater than student's total income.	Students Calculated 2001 Tax Status equals filed. Income from Worksheet C is greater or equal to Student's AGI, and Student's Total from Worksheet A plus Worksheet B.

Students Calculated 2001 Tax Status equals non-filer. Income from Worksheet C is greater than or equal to Student's Income Earned From Work, Spouse's Income From Work, and Student's Total from Worksheet A plus Worksheet B. |

ISIR Comment Codes

For a complete listing of SAR and ISIR codes, please see the companion document to the *2002–2003 EDE Technical Reference* entitled *2002–2003 SAR/ISIR Comment Codes and Text.* This document can be found ~~at the Department's Web site~~, ***on the U.S. Department of Education's Student Financial Assistance Download (SFAdownload) Web site located at* SFAdownload.ed.gov** as well as **ifap.ed.gov**.

Printing

Printing ISIRs

Printing the ISIR

Effective in 2002-2003 you are no longer required to print your Institutional Student Information Record (ISIR) output document exactly as the ED provided software, EDExpress, prints it. You can also choose to print additional information on the ISIR. Included in this section is the ISIR Fields Not Printed on the ISIR table. It contains all the ISIR fields that EDExpress does not print on the ISIR. There is an example of an ISIR printed from EDExpress for your reference.

The following information assists the school or state agency in printing the data on a received ISIR:

- Printing Assumed Values
- Printing Intermediate EFC Values
- Printing Correction Flags
- Printing Highlight Flags
- Rejected ISIRs
- Comments
- Field Types
- Other Field Notes

Printing Assumed Values

"Assumed Values" reflect suppositions the Central Processing System (CPS) has made in determining the applicant's Expected Family Contribution (EFC). CPS makes assumptions when the applicant does not report certain information that is necessary for the EFC calculation or when the applicant reports inconsistent information. (Some unreported information will result in a rejected transaction rather than assumptions.) CPS uses the assumed value when calculating the EFC.

For certain fields, the only assumption CPS ever makes is zero so these assumption fields on the ISIR will contain zeros (for example, ISIR field 240, Assumed Student's U.S. Tax Paid). On the ISIR, EDExpress will print an asterisk (*) to the left of the field title to indicate that the CPS made an assumption and the assumed value must print in place of the reported value.

If a field is both assumed and highlighted, EDExpress would print an asterisk (*) to the left of the field title. Positions ~~1370-1458~~ *1371-1459* of the ISIR all contain CPS assumption fields.

Printing Intermediate EFC Values

An intermediate EFC value is a value that is used during the EFC calculation process. EDExpress will print either the primary or secondary values, not both. The value in the Federal Pell Grant Paid EFC Type determines which set of values are printed.

Printing Correction Flags

Correction Flags on the ISIR (positions ~~692-811~~ *693-812* on the ISIR layout) indicate changes to FAFSA data processed by the CPS. Refer to the Field Name and Position Cross References table in section 4.

If a field was corrected on the current transaction, the correction flag will contain a value of 1. If a field was corrected on a previous transaction, the correction flag will contain a value of 2. All other correction flag fields will have a value of zero.

EDExpress will print on the ISIR a pound sign (#) to the right of the field variable that was corrected on the most current transaction, and print an at sign (@) to the right of the field variable that was corrected on a previous transaction.

Correction flags are cumulative (i.e., the flag will be carried on all subsequent transactions).

EDExpress does not actually print the data in this field, rather it uses this data to determine which fields will have a # or @ printed to the right of the field variable to show that the field has been corrected from the original application.

Printing Highlight Flags

Highlight Flags on the ISIR (positions 812-931 *813-932* on the ISIR layout) indicate data highlighted in bold face on the Student Aid Report (SAR), based on FAFSA data processed by the CPS. Refer to the Field Name and Position Cross References table in section 4. These fields are highlighted and provide a comparison reference between the SAR question number and ISIR field positions.

Any field containing a highlight flag will have a value of 1. All other highlight flag fields have a value of zero.

On the ISIR, EDExpress will print the letter 'h' to the left of the field title that was highlighted. If the field is both highlighted and assumed, an asterisk (*) will print to the left of the field title.

EDExpress does not actually print the data in this field, rather it uses this data to determine which fields will have an h printed to the left of the field title to show that the field was highlighted.

Rejected ISIRs

Applications and corrections submitted to CPS, regardless of the input type or source, can be rejected for incomplete, illogical, or inconsistent data.

An EFC will not be computed for a rejected application transaction. Transactions can be rejected for multiple reasons. Up to seven two-digit reject reason codes are carried on the ISIR.

The reject reason codes and resolution in response to each reject reason are described in the Table of Reject Codes and How to Respond to Each, in section 4, Processing Codes.

Comments

Up to 20 three-digit numbers can appear on the ISIR record, indicating which comments would appear on Part One of a SAR from any paper application processor. Some comments contain critical information regarding the student's status. The comment text that prints on the ISIRs can be found in the *2002-2003 SAR/ISIR Comment Codes and Text* document found on *the U.S. Department of Education's Student Financial Assistance Download (SFAdownload) Web site located at* **SFAdownload.ed.gov** and **ifap.ed.gov**. ~~Additional Comment information is found in the ISIR Comment Codes Cross Reference table, in section 4, Processing Codes.~~

Field Types

Fields can contain one of three types of data: character, numeric (N), or signed numeric (S/N). All 9s in a field indicate that the reported or calculated value is greater than or equal to the value of all 9s. Blanks are allowable in some S/N and N fields.

With signed numeric fields, the sign is always implied in the right most character of the field. For example, if the Student's Adjusted Gross Income field contains a value of negative 3507, it would appear as 00350P. The following chart explains the conversion of the sign and the number:

Signed Numeric Fields:

{	+0	E	+5	}	-0	N	-5
A	+1	F	+6	J	-1	0	-6
B	+2	G	+7	K	-2	P	-7
C	+3	H	+8	L	-3	Q	-8
D	+4	I	+9	M	-4	R	-9

Note: All signed fields will have an extra byte printed.

Other Field Notes

EDExpress does not print the Subsequent Application Flag on the ISIR. If this field has a value of Y, Subsequent application from student, then an * is printed next to the EFC.

EDExpress does not print the value in the Electronic Federal School Code Indicator field, instead it prints the Federal School Code number associated with the value. For example, if the Electronic Federal School Code Indicator equals 3, EDExpress will print the value for the Federal School Code #3 field.

006
If you need additional help with your ISIR, contact your school Financial Aid
Administrator (FAA) or the Federal Student Aid Information Center at 1-800-4FED-AID
(1-800-433-3243).  If your address changes, contact your school or call 1-800-4FED-AID to
make the correction on your record.

149
Based on the information we have on record for you, your EFC is 2068.  Your school will
use this number to determine what types of aid and how much you are eligible for. You may
be eligible to receive a Federal Pell Grant and other federal student aid.

161
We could not match your information with the Department of Veterans Affairs (VA) because
you did not give us your full name, date of birth and/or signature.  You should review and
correct these items on your ISIR

143
Your citizenship status has been confirmed by the Immigration and Naturalization Service
(INS) and you meet the citizenship requirements for federal student aid.

READ, SIGN, AND DATE

If you are the student, by signing this application you certify that you (1) will use
federal and/or state student financial aid only to pay the cost of attending an
institution of higher education, (2) are not in default on a federal student loan or
have made satisfactory arrangements to repay it, (3) do not owe money back on a
federal student grant or have made satisfactory arrangements to repay it, and (4) will
notify your school if you default on a federal student loan.

If you are the parent or the student, by signing this application you agree, if asked,
to provide information that will verify the accuracy of your completed form. This
information may include your U.S. or state income tax forms. Also, you certify that
you understand that the Secretary of Education has the authority to verify information
reported on this application with the Internal Revenue Service and other Federal
agencies. If you purposely give false or misleading information, you may be fined
$20,000, sent to prison, or both.

Everyone whose information is given on this form should sign below. The student (and
at least one parent, if parent information is given) MUST sign below.

Student _____ Date: _____

Parent _____ Date: _____
